The screenshot shows a "Profile setup" dialog box with a standard Windows-style title bar and a close button (X) in the top right corner. The dialog contains the following elements:

- "Profile name:" followed by a text input field and a reference numeral "b1" to its right.
- A checked checkbox followed by the text "Battery charge inhibition" and a reference numeral "b2" to its right.
- An unchecked checkbox followed by the text "AC input disconnection" and a reference numeral "b3" to its right.
- A checked checkbox followed by the text "Monitor power off", a spin box, and the word "Minute". A reference numeral "b4" is positioned above the spin box.
- A checked checkbox followed by the text "Hard disk power off", a spin box, and the word "Minute". A reference numeral "b5" is positioned below the spin box.
- A vertical ellipsis (three dots) below the "Hard disk power off" option.
- "OK" and "Cancel" buttons at the bottom right.
